

Another building, another boost for the Trus Joist system.

Baker Construction Co. of Albuquerque is no stranger to Trus Joist. When architect John Reed called on us to supply a system for the Geology/Engineering Bldg. for Ranchers Exploration and Development Corp. Les Baker was pleased. Upon completion of the Trus Joist installation he told us:

"... we found the use of TJI units as efficient and economical as ever. As one of the first users of Trus Joist units in this area, we have been, and will continue to be one of their boosters."

If you want to see how easy and economical joist application can be, see us soon. We've got exactly what you're looking for.

Congoleum® FLOR-EVER®

COMMERCIAL VINYL FLOORING

Traverline is commercial flooring at its best...designed like no other floor to meet the changing commercial needs and demands, including virtually seamless installations in most applications. Here is a beautiful and delicate reproduction of a natural material...reproduced as never before. Traverline has a subdued background and a seamless tile effect that sets it apart from traditional commercial flooring. Available in 9' and 12' widths and 12 color choices.
