Moynihan (D-N.Y.), should be of interest to all concerned with the built environment!

Resolved,

Whereas in the Fall of 1980 the frame of the new Senate Office Building was covered with plastic sheathing in order that construction might continue during the winter months; and

Whereas the plastic cover has now been removed revealing, as feared, a building whose banality is exceeded only by its expense and

Whereas even in a democracy there are things it is as well the people do not know about their government;

Therefore be it Resolved that it is the sense of the Senate that the plastic cover be put back.
