## awards issue — part two

New Mexico Society of Architects  
1983 — Roster

**Gran Prix canopies . . .  
whenever, wherever shelter  
is needed.**

Howmet's new canopy panels are available in .028 and .036 aluminum or 24 gauge steel and features your choice of two color combinations: white birch woodgrain pattern on top with white high-gloss on the bottom or white high-gloss topside and white birch woodgrain pattern on the bottom. All finishing is applied using Howmet's two-sided coil coating line employing the latest acrylic/polyester paint.

We can also supply extruded aluminum beams, Decor-Wall® mansard panels, trim members and accessories in a variety of gauges and colors, plus complete rain-carrying systems for service station islands, drive-through banks, carports, covered walkways . . . wherever protection from the environment or convenience is needed.

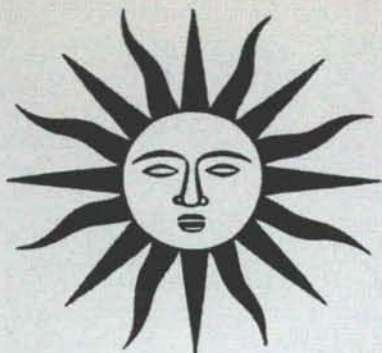

## **Architectural Metal Sales Representatives, Inc.**

1932-7th. N.W.  
ALBUQUERQUE, N.M. 87102

Howmet's Gran Prix 12 inch blade and scabbard, snap-lock\* roofing system. It saves you time. It saves you money. It provides ease of installation.

• vol. 25 no. 2 •

march-april 1983 • new mexico architecture

In this issue are the four additional New Mexico Society of Architects Honor Award winners. See pages 9-12. And the annual NMSA Roster. The roster is inserted in the center of the magazine for easy removal for your files.

The battle to save, and subsequently to restore, the west front of the United States Capitol Building has been won by the good guys. Both Houses of Congress have voted to restore the historic facade. I want to thank any of our readers who wrote to their Senators and Congressmen pleading for restoration. Citizen input can make a difference.

The May/June issues of *New Mexico Architecture* is also in the works. It will contain an article about the Wellington Place Apartments new Clubhouse. The article has been prepared by Regan Young, who graduated from the Architectural Department of the University of New Mexico in 1982.

## FOR FLIGHTS OF FANCY...A BATH WORTH THE TRIP.

Introducing the Infinity $\infty$  Bath Whirlpool.<sup>TM</sup> Your mother always told you sharing was a virtue, now Kohler makes it practical, relaxing and good clean fun.

Infinity $\infty$  is the same length as a conventional

bath but its extra width broadens bathing pleasures infinitely.

It's a luxurious, 20 inch deep, body-contoured whirlpool, with a control panel that eliminates spouts, making sharing comfortable as well as

beautiful.

Your dreams of Infinity $\infty$  can be realized in Espresso or a variety of Kohler decorator colors. So, whether you're interested in luxurious bathing, invigorating massage or just togetherness, the Infinity $\infty$ Bath

Whirlpool offers more for one or for two...than just tea.

Visit us for a look at the Infinity $\infty$ Bath and other Kohler products for the bath, kitchen, or powder room.

# BUILD A BETTER BACK-UP FOR YOUR BUILDING...

**All-Masonry gives you ALL the advantages.**

New wall systems periodically appear on the construction scene. All seem to boast economy, speed and durability. But all too often, years down the road, comes the sad realization that the new systems just haven't lived up to the claims.

But with All-Masonry walls, you get exactly what you specify and buy — time-tested construction. There is never a need to worry that the system will work the way you expected. During construction, you work with proven methods of flashing, weepholes, expansion joints, ties and anchors — time-tested methods for preventing and solving problems.

After construction, All-Masonry walls provide an enclosure that saves energy and maintenance.

With closed cell, rigid insulation used in

cavity walls, or with insulation adhered to the face of the concrete block, R-Values of the walls, from R-11 to R-23, can be achieved. Also masonry's "mass" moderates heat loss in the winter and heat gain in the summer.

Few building systems can rival the strength and performance of All-Masonry construction. None can claim lower maintenance costs. And Masonry is a naturally fire-resistant material. It won't burn, melt or give off dangerous toxic fumes. So choose Masonry-on-Masonry for worry-free construction, high energy efficiency, and greater building life expectancy.

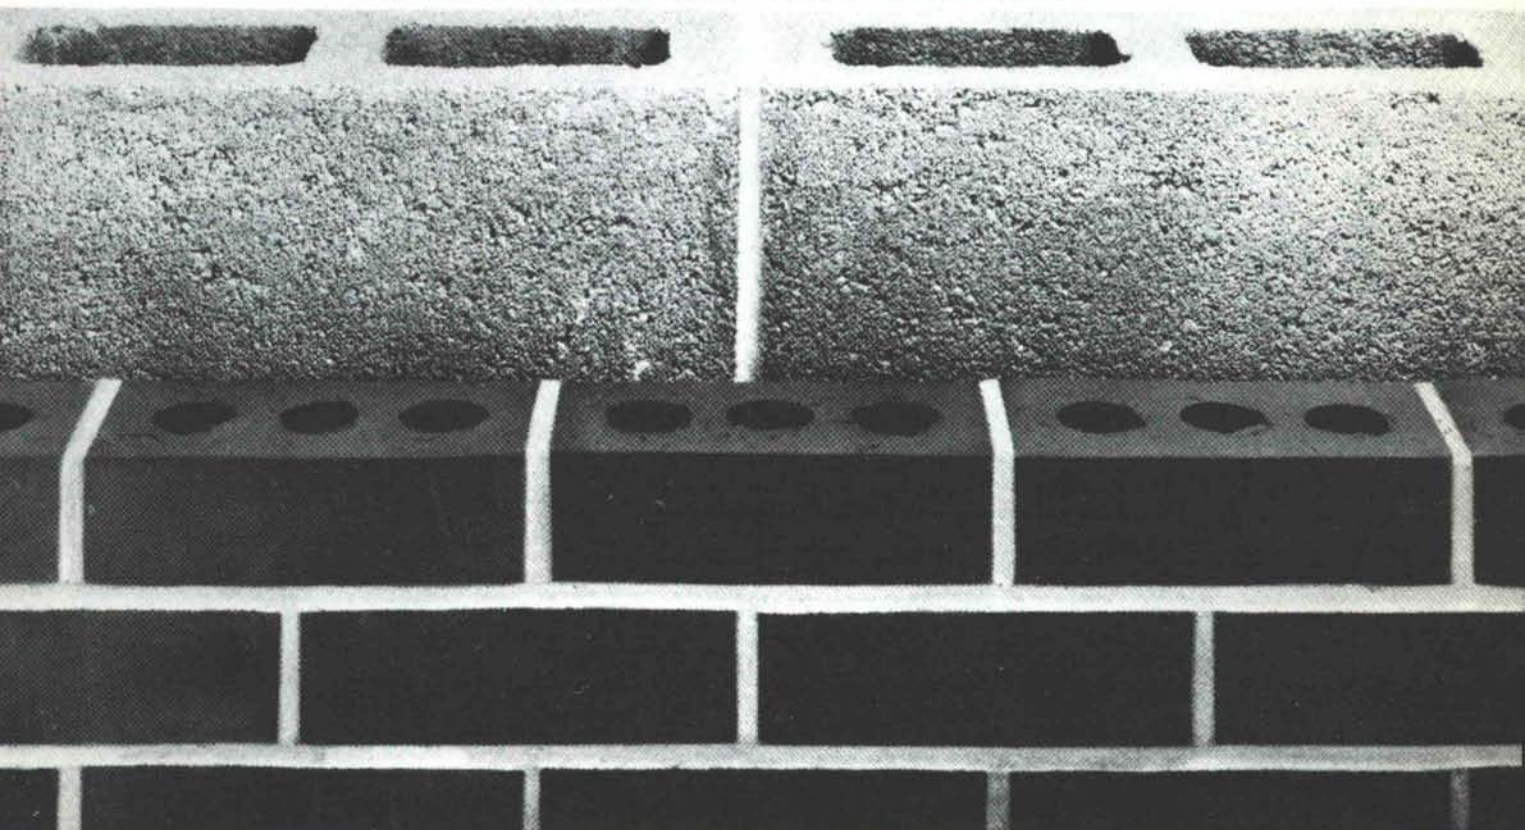

And, above all, for peace of mind...

## 1982 Honor Awards — continued

The New Mexico Society of Architects Awards Program is a highly respected tribute to architectural excellence. The selection is made on the basis of design excellence, sensitivity to human and functional needs and to the built environment. The purpose of this Awards Program is to encourage a high level of architecture, recognize the clients and architects who have distinguished themselves by their accomplishments and to inform the public of the high architectural quality being brought to bear in the physical environment.

Robert W. Peters, A.I.A.  
Architect

### Honor Award: Renovation

**Dietz Farms Plaza  
Shopping Center  
Albuquerque**

A remodeling of a 10 year old shopping center with goals of providing urban scale by use of a monumental wall, auto scale by redesign of the arcade and site to attract the passing motorist, and walking scale to relate to the shopper by providing a shaded and pleasant enclosure. A budget of 70,000 dollars for architectural work and 20,000 for landscaping provided limits which called for priorities to be established to gain the maximum impact.

**Dietz Farms Plaza  
Shopping Center  
Albuquerque, New Mexico**

#### Jury Comments

A fine remodeling job on a very minimal budget. A creative design approach which was brilliantly executed.

Architect:  
Robert W. Peters, A.I.A.  
Albuquerque, New Mexico

Consultants:  
Structural - W.R. Underwood Jr.

Landscape Architect:  
Morrow & Worley

General Contractor:  
Baker Construction Co., Inc.  
Albuquerque, New Mexico

Client:  
Littleton Trust

Stevens, Mallory,  
Pearl & Campbell, P.A.  
Architects

## Honor Award: Renovation

Yale-Burton Reservoir  
Albuquerque

An 8 million gallon reservoir located in East Albuquerque near a prominent entrance to the University of New Mexico. The project was as a consultant to an engineering firm doing a structural renovation of the reservoir. The structurally supporting berm was surfaced with boulders which provide immediate textural interest until plantings matured. A warm-tone concrete fascia replaced a chain link fence barrier. Sheltered reading and conversation areas were developed in the space adjacent.

Architects:  
Stevens, Mallory, Pearl & Campbell, P.A.  
Albuquerque, New Mexico

Client:  
Boyle Engineering

Owner:  
City of Albuquerque

### Jury Comments

We were impressed with the design assignment and believe the architect did an excellent job. The use of the reading and conversation areas was impressive and well done. The engineer is to be complimented who hired the architect for the aesthetics.

Laban W. Wingert, A.I.A.  
Architect

## Honor Award: Renovation

**Victor's Ristorante  
Santa Fe**

A restaurant remodeling project in Santa Fe completed in ninety days featuring Italian cuisine. The bar/lounge entry is designed to be a warm welcoming center. Interiors were enlarged by removing unnecessary partitions and simplifying forms. The patio was covered with a skylight to add more dining space.

Architect:  
Laban W. Wingert, A.I.A.  
Santa Fe, New Mexico

Client:  
Donna Cost

### **Jury Comments**

This project was done in a nice clean manner to have been completed in such a short time. It has the proper ambiance for a restaurant through the good use of materials and interesting volumes.

Burran and Smith, A.I.A.  
Architects

## Honor Award: Historic Preservation

John Cox Ranch  
Santa Rosa

---

### The John Cox Ranch Santa Rosa, New Mexico

Architects:  
Burran and Smith, A.I.A.  
Clovis, New Mexico

Client:  
John L. Cox

The remodeling of an existing ranch house built in about 1860 to create a contemporary vacation home and guest quarters. Covered porches and walkways are used to unify the buildings and provide a sense of the original Texas pioneer style. The site is opened by removal of a stone fence and additional landscaping added.

### Jury Comments

An outstanding job. Good use of materials, especially the simplified arcades. The landscaping is very compatible. Existing and new materials handled in a very fine manner.
