MULTIPLY USABLE SPACE WITH PRESTRESSED CONCRETE

The new ABC bonded warehouse in Albuquerque is a good example of the clear span capability of prestressed concrete. The 30' high walls and the roof are prestressed concrete 8' double tees supported by precast girders and columns, giving a 60' clear span on the interior. The added advantage of course, is maximum fire resistance.

"I would particularly like to take this time to thank you for the very rapid delivery . . ."

So says Stanley Borthwick, president, Lembke Construction Co.

This Albuquerque construction company has used TRUS JOISTS on a number of jobs throughout New Mexico. They know the numerous structural and cost saving advantages of T.J. They're all important.

But there's another important consideration.

Prompt delivery.

That's synonymous with TRUS JOIST.
