FRESH OFF THE DRAWING BOARD

CONCRETE MASONRY PAVERS

THE NEW WAY TO GIVE CHARACTER, COLOR, AND HUMAN SCALE IN BOTH COMMERCIAL AND RESIDENTIAL AREAS.

UNLIMITED APPLICATIONS FOR PEDESTRIAN AND VEHICULAR TRAFFIC IN PLAZAS, ROADWAYS, WALKWAYS AND PARKING AREAS.

SPECIFICATION AND INSTALLATION DETAILS FOLDER ON C.M.P. PREPARED BY THE TECHNICAL DEPARTMENT OF NATIONAL CONCRETE MASONRY ASSOCIATION ARE AVAILABLE. PLEASE CONTACT CREGO BLOCK CO.

WHEN CONCRETE MASONRY PAVERS ARE EMPLOYED, THE FIRST COST — INSTALLATION — IS NEARLY THE LAST COST. THE LONG, NEARLY MAINTENANCE-FREE LIFE OF A PAVING BLOCK SURFACE WILL DELIVER A DISTINCT COST ADVANTAGE TO YOUR BUDGET.

Kohler gives you a rare feature in single control faucets.

Control.

You know the feeling. You're fiddling with the faucet in search of it's there somewhere. But you can't seem to find it until you've suffered through a few tries.

That's why you should try Kohler's Centura. It has a comfort zone five times wider than most. So you don't have to get chilled or get burned before you get comfortable.

An ingenious tapered cam lets you turn the handle a full 180 degrees. So you can set the temperature exactly where you want it. This cam is the only moving part in Centura's cartridge. There are no springs, no washers, no O-rings. No wonder there were no leaks and no drips in the Centura even after we tested it 500,000 times. Centura is also a Water-Guard faucet, offering water-saving flow control at no extra charge. All are shown in polished chromium: lavatory faucets and shower and bath controls also come in 24-karat gold electroplate.

Kohler products are available in Canada. For information write DEPT. C.T. KOHLER CO., KOHLER, WIS. 53044. (Please mention this publication's name.)

Centura. It puts control right where it belongs. Right in your hands.

**The Bold Look
of Kohler**

NO SPRINGS.
NO WASHERS.
NO LEAKS.

Enjoy a comfort zone five times wider than most.

Centura bath/shower control.

Centura lavatory faucet.

THE HISTORICAL SOCIETY OF NEW MEXICO will hold its Annual Meeting and Conference in Taos, April 20, 21, 22, 1979. The meeting begins Friday afternoon (April 20) at the Kachina Lodge with three concurrent sessions. The varied program includes such topics as a panel discussion on "Photo Archives and Collections" chaired by Arthur Olivas of the Museum of New Mexico staff; a two session seminar, "Historic Preservation — A Challenge for the Architecture and History Student," will discuss the resources, methods and directions of the preservation profession and will include a field trip to several Taos buildings.

Twenty one speakers are scheduled to deliver papers on New Mexico history. Mark Simmons will discuss "Carros y Carretas, Vehicular Traffic of the Camino Real." Charles C. Colley will explain the "Moorish and Arabian Influences in New Mexico." Daniel Tyler will talk about the "Mexican Indian Policy."

POSTER AVAILABLE

The Historical Society of New Mexico has issued the first of its projected annual conference posters. The poster features a previously unpublished photograph taken in June, 1880 by Ben Wittick. (See above.) The poster is available for \$5.00 plus \$1.00 postage and handling.

For further information on the conference, or to order a poster contact: Historical Society of New Mexico Post Office Box 5819 Santa Fe, New Mexico 87502

Ahead of schedule. Because we were behind them.

Brooks and Clay, Inc. served as general contractors for Albuquerque's Mound Terrace Office Complex. They used Trus Joist components for the structural system designed by Dean & Hunt Associates, architects. Here's what Robert W. Brooks told us later:

"We would like to compliment your organization and the Trus Joist Co. for the way the joist system was handled... The easy application and quick delivery time has our Company well ahead of schedule."

It figures. Trus Joists are built for speed. For labor savings. For optimum strength. Give us a call and find out for yourself.

Trus Joist structural roof and floor systems distributed by McGill Stephens, Inc., Albuquerque and El Paso.

Since the beginning of recorded time, the strongest, most beautiful, most economical and longest lasting buildings have been built of masonry.*

By bricklayers.

It is as true today as it will be tomorrow.

When you build with masonry, you build for keeps.

* Brick. Ceramic Tile. Concrete Block. Marble and Granite. Plaster. Stone. Terrazzo.

MASON CONTRACTORS ASSOCIATION OF NEW MEXICO

How to look at windows.

Heat gainers or heat losers?
That all depends on how you look at windows. And on their built-in quality.

Andersen® windows are designed to be heat gainers. And when properly sized, shaded and oriented toward the sun, Andersen windows save even more energy. In winter, they welcome in the warming sun, and in summer, they open to cooling breezes.

Isn't it time you took a good look at energy-saving Andersen Perma-Shield® and primed wood windows?
