BUILD A BETTER BACK-UP FOR YOUR BUILDING...

All-Masonry gives you ALL the advantages.

New wall systems periodically appear on the construction scene. All seem to boast economy, speed and durability. But all too often, years down the road, comes the sad realization that the new systems just haven't lived up to the claims.

But with All-Masonry walls, you get exactly what you specify and buy — time-tested construction. There is never a need to worry that the system will work the way you expected. During construction, you work with proven methods of flashing, weepholes, expansion joints, ties and anchors — time-tested methods for preventing and solving problems.

After construction, All-Masonry walls provide an enclosure that saves energy and maintenance.

With closed cell, rigid insulation used in

cavity walls, or with insulation adhered to the face of the concrete block, R-Values of the walls, from R-11 to R-23, can be achieved. Also masonry's "mass" moderates heat loss in the winter and heat gain in the summer.

Few building systems can rival the strength and performance of All-Masonry construction. None can claim lower maintenance costs. And Masonry is a naturally fire-resistant material. It won't burn, melt or give off dangerous toxic fumes. So choose Masonry-on-Masonry for worry-free construction, high energy efficiency, and greater building life expectancy.

And, above all, for peace of mind...

The New Mexico Society of Architects annual Honor Awards are partially recorded in this magazine. Four additional Awardees will be presented in the next issue of *NMA*. Space would not allow for them all to be published in this one issue.

As we begin to get our act back together, and on schedule, we expect to be able to re-prove our viability to past and prospective advertisers. We are indebted and very grateful to those advertisers who are bearing with us. I am pleased to be able to report that additional advertisers will appear in the March/April issue.

We ask our readers to thank the advertisers by mentioning that they saw their ads in *NMA* and, more importantly, by specifying their products when appropriate.

With a little luck, perseverance by our "staff", and an improving economy, we look forward to a fatter, meatier, profitable *New Mexico Architecture*.

I need the year to slow down, so that I can catch up!

VANQUISH THE DARK AGES

Let us vanquish those old dragons that said, "Faucets are supposed to turn on water...not people."

Hail IV Georges Brass.TM It's Kohler's richly turned brass faucet designed with the ornamentation of England's IV Georges era,

the elegance of our Georgian period and the warmth of brass and wrought iron.

IV Georges has inspired accessories for the bath and powder room: Soap dishes, towel rings and bar,

tumbler/toothbrush holder, robe hooks, mirrors, whirlpool jets, and other finery. Come Lord. Come Lady. Vanquish the Dark Ages. Draw on the mettle that is IV Georges Brass.

See IV Georges Brass faucets and accessories, as well as the entire spectrum of fine Kohler products for the kitchen, bath, and powder room, at a Kohler showroom near you. Check the Yellow Pages for the nearest location.
