New Mexico State Engineer Issues Order on Mine Dewatering	<i>Kathleen Watson</i>	359
Is a Winter-Only Drilling Restriction a Suspension of Operations and Production Under 30 U.S.C. §209?	<i>Peter F. Lindborg</i>	363
Mineral Leasing Act of 1920: Environmental Standards Set By Departmental Regulations	<i>Thomas F. Blueher</i>	367
Uranium In-situ Leaching Project Held Not to Require EIS	<i>Susan J. Brown</i>	371

# THE UNIVERSITY OF NEW MEXICO SCHOOL OF LAW

## ACCREDITATION

The School has met the standards of the American Bar Association and of the Association of American Law Schools. It was approved by the American Bar Association on February 24, 1948. Membership in the Association of American Law Schools was granted in December, 1948. The School is fully accredited.

## AIMS AND METHODS

The lawyer who functions in his profession, whether as private practitioner or as public servant, is an integral part of the system by which a democratic society governs itself. If he is properly to discharge the responsibilities of this role, his education for the profession must be both broad and intensive. In its breadth it must encompass a full understanding of and belief in the democratic respect for the individual personality and the democratic processes designed to allow the individual to develop and participate in a free, self-governing society. In its intensification it must impart a high degree of competence in the craftsmanship of the law—in those skills and insights essential to an adequate performance of the lawyer's function as advocate, judge, legislator, teacher, administrator, or civic leader.

Such education neither begins nor ends in the law school, and the School of Law is continually concerned not only with its own curriculum but also with the quality of pre-legal education and with the continuing self-education which should be pursued by all members of the profession. In consequence, it is urged that students enter the School with as broad a cultural and educational background as it is possible for them to obtain. Accordingly, the basic requirement for admission is now a baccalaureate degree from an approved college or university.

The student will spend the equivalent of six semesters of study in the law school in courses designed both to bring the teachings of history, philosophy, and the social sciences to bear upon the solution of legal problems and to develop the skills and insights essential to research, analysis, synthesis, criticism, and exposition. Due to the low ratio of students to teachers (less than 15 to 1), substantially more individual and small group work is possible in the School than in most law schools.

For application materials and further information, write to the School of Law, The University of New Mexico, Albuquerque, New Mexico 87131.
